

# AI Solutions Suite for Work

Reap the benefits of Artificial Intelligence TODAY.  
Rather than later, when it's no longer a competitive advantage.

- Natively integrated with Enterprise Messaging and Collaboration
- Proven AI models that solve hitherto unsolved problems at work, now integrated with your workstream.

## 01 SPEAK OR TEXT

To get things done or to retrieve information. Cordiaa is integrated with the same engine that runs Alexa.

## 02 BUILD YOUR OWN BOTS

Chatbots that deliver moment-of-need information required by a worker when interacting with a customer, whilst completing a process or when using an application.

## 03 IMAGES, VIDEOS AND EVEN VOUCHERS

Auto-Tag images and videos with metadata at scale, based on the cognitive content identified by the integrated Computer Vision models

Catalog, search and discover your digital assets with up to 10x more efficiency than on any other platform

Extend it to even your scanned vouchers and other single page documents

## 04 THE AI SOLUTIONS SUITE

- Several proven AI models natively integrated into a chat-based messaging backbone.
- A DIY Bot-Builder on the platform: Business end-users themselves can build and deploy chatbots that deliver moment-of-need information at work.
- Voice and Natural Language Interface (Conversational AI) across the platform. Augments the traditional Graphical User Interface. Based on the same engine that runs Alexa.
- Several integrated Computer Vision models that catalogue images, videos and scanned paper documents at scale based on their cognitive content. You retrieve these digital assets on Cordiaa at 10X the speed of incumbent applications.
- Integrated Neural Machine Translation model that enables seamless conversations between two people who may not speak the same language.
- Consumer App Experience: Web, iOS, Android. Roll out with zero training.

## 05 CORDIAA CAN MAKE A SIGNIFICANT IMPACT FOR

- Information Workers
- Sales Teams
- Support Teams
- Frontline Employees
- Field Service Workers

**We're on a mission.**

**To deliver the benefits of cutting-edge Artificial Intelligence to forward-looking customers TODAY.**

**Rather than later, when AI is mainstream and no longer a competitive advantage.**

*We can't wait to see your work go from Good to Great*
